DETAILED ACTION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 4/26/11 has been entered.

Claims 32-39,44 and 49-57 are allowable. The restriction requirement as set forth in the Office action mailed on 12/8/06, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claim 37, directed to a subspecies is no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Catherine Liang on 3/7/12.

1. Claim 32, line 10: after "fastener" --the carrier comprising a distal portion wherein the distal portion remains within the tool body during implantation of the fastener-- has been inserted.

2. Claim 56, line 12: after "fastener" -- wherein the distal portion remains within the tool body during implantation of the fastener -- has been inserted.

3. Specification page 1 (page 1 of spec. dated 5/16/05), line 2: after "October 24, 2003" -- now U.S. Patent No. 6,929,667 -- has been inserted.

4. Specification page 1 (page 1 of spec. dated 5/16/05), line 6: after "November 29, 2002" -- now U.S. Patent No. 8,075,570 -- has been inserted.

5. Specification page 1 (page 1 of spec. dated 5/16/05), line 8: after "October 15, 2002" -- now U.S. Patent No. 6,960,217 -- has been inserted.

Allowable Subject Matter

Claims 32-39,44 and 49-57 are allowed. The following is an examiner's statement of reasons for allowance: The examiner has added U.S. Patent No.

Art Unit: 3773

6,984,241 to the record. The examiner's amendment above is supported in Figs. 16A-16D of the current application. The prior art of record fails to teach, alone or in combination, a motor-driven tool for applying an implantation force to a helical fastener including a drive motor carried in a tool body with a driven member coupled to the drive motor and a carrier on the driven member transfers the implantations force from the driven member and the distal portion remains within the tool body during implantation, a motor control unit carried in the tool body with the phases as described in the claims including the distal portion of the fastener penetrating the tissue when the proximal portion is retained within the tool body.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
